

March 2011

To whom it may concern,

Once again, we were fortunate to work on our home with Rolando Flores from Custom Homes Builders. And once again, we are very happy with the result. Our addition is beautiful, seamless and built to the high standards we expected from Rolando.

Rolando expects the best out of his staff and his sub-contractors. He is always on the job site, constantly supervising all activities, making sure every detail is done to his high standards and to his clients' satisfaction. He does not 'cut corners' and the results are spectacular: from the inside out everything is done correctly.

Rolando was hired by us in 2004 to build our first major remodel. When the house was done, we knew that will never build with anyone but him. We are so glad we hired him again. His experience and skills show up in every detail. Some aspects of our projects were pretty complicated and required problem solving and of course, Rolando had a solution to every problem.

We highly recommend Custom Homes Builders to anyone who is building a home or remodeling. When you hire Rolando you know you are in good hands.

A handwritten signature in black ink, appearing to read "Rinat Goren". The signature is fluid and cursive, with a long horizontal flourish at the end.
